The Lilly Fellows Program

The Lilly Fellows Program, established in 1991, seeks to strengthen the quality and shape the character of church-related institutions of higher learning in the twenty-first century.

First, it offers postdoctoral teaching fellowships for young scholars who wish to renew their sense of vocation within a Christian community of learning in order to prepare themselves for positions of educational leadership within church-related institutions.

Second, through the Lilly Graduate Fellows Program, it supports, during their first three years of graduate school, young men and women of exceptional academic talent who are exploring vocations in church-related higher education.

Third, it maintains a collaborative National Network of Church-Related colleges and universities that sponsors a variety of activities and publications designed to explore the Christian character of the academic vocation and to strengthen the religious nature of church-related institutions. The National Network represents a diversity of denominational traditions, institutional types, and geographical locations.
